

# World-Class Manufacturing Leader

In Sealing Solutions, Devices, and Assemblies

Global leader of precision engineered rubber and plastic components designed to make a difference. With over 40 years of experience, Gulf is the single trusted source for enhanced designs, global manufacturing and distribution, certified quality, and unparalleled customer service.

## Industry Pioneers

Gulf delivers cost-effective single-source solutions for precision molded products and shortens supply chain with both domestic and global manufacturing capabilities of liquid silicone rubber (LSR) and high consistency rubber (HCR). We serve numerous industries including healthcare, appliance, potable water, valve and fluid control and general commercial.

## About Gulf Rubber

As a part of the Skellerup Group, and a leading manufacturer of precision engineered rubber and plastic components, assemblies and subassemblies, we deliver the highest-quality parts globally.

With our expertise in engineering, state-of-the-art R&D facilities, and a robust supply chain, we offer custom-engineered solutions for complex industry challenges that drive your business growth.

*Experience the undeniable advantage with Gulf.*

Through innovative thinking, custom enhanced designs, global manufacturing and distribution, excellent service, and certified quality, we give our customers the competitive edge. All you need is one company. That's why we are your single trusted source.

## Our Capabilities

---

- Consultation
- Material Science and Development
- Extensive Agency Certified Formulations
- Compounding And Mixing
- Engineering and Design
- Rapid Prototyping
- Molding and Overmolding
- Assembly and Sub-Assembly
- Functional and Performance Testing
- In-House Quality Lab
- Packaging Solutions
- Shipping and Logistics
